PRINT-TO-PRODUCT CONSULTING
FOR THE DYEMANSION DM60

STAGE 1 DESIGN			STAGE 2 PRINT			STAGE 3 FINISH		
SCAN >	CAD >	MES >	MATERIAL >	NESTING >	PRINTER >	CLEANING >	SURFACING >	COLORING

THE PRINT-TO-PRODUCT CONSULTING IS VALUABLE AND ESSENTIAL.

The consulting ensures that users are technically empowered to use the full potential of the Print-to-Product Platform. It ensures customer satisfaction with reproducible and qualitative results while avoiding misuse and therefore helps identify troubleshooting after installation. Apart from that, the consulting ensures good customer relations and the image of the DyeMansion brand. Finally, one of the goals is to broaden everyone's understanding of the AM market and production.

PRINT-TO-PRODUCT CONSULTING
FOR THE DYEMANSION DM60

LEARNING OBJECTIVICES

- ✓ An in-depth educational approach to each step of DyeMansion's Print-to-Product workflow and its connection to the whole AM value chain from design to build to finish.

- ✓ Exchanging previous experiences will give us the chance to understand your applications and processes.

- ✓ Based on this knowledge transfer we will target your application specific challenges and tailor the right solution to your requirements.

- ✓ With upcoming new projects, whether it is a new material, exploratory task, or just a new part, all give you the opportunity to fine tune your specific workflow.

- ✓ Through our Print-to-Product consulting we will teach you the optimal approach to begin this journey (to ensure the best possible outcome).

Our Print-to-Product consulting is like an intensive driver training course. We teach you the optimal use of our technology to achieve the best possible results.
